JACKSONVILLE, Fla., July 27.—J. T. Bowden who achieved notoriety as the manager of the Duval Athletic club, which organization pulled off the Corbett-Mitchell fight last February, was horse-whipped to within an inch of his life today. Bowden's assailant was one Branson, a Pullman car conductor, and the cause was an alleged insult to Mrs. Branson. Branson met Bowden in a saloon, covered him with a pistol and then proceeded to vent out a buggy-whip on him. Bowden begged for mercy, but Branson was implacable and when he finished Bowden was in a pitiable condition. His face was a mass of bruises and his clothing was cut to shreds. Branson is a six-footer and weighs over 200. Bowden is about five feet high and weighs about ninety-five pounds. It is stated that further trouble will follow. ## CORN'S LIVELY JIG

SCORCHING HEAT CAUSES THE  
KING TO DANCE

May Delivery Makes a Jump of Three and a Half Cents—Wheat is Agitated by the Frantic Struggles of Corn but Its Leader Spirits Finally Reassert Their Sway and the Market Closes Weak.

## Other Markets

Quoted.

CHICAGO, July 27.—Corn led the grain market a lively dance today. For May delivery there was an excited bulge of 3 1/2 cents per bushel and a gain of 2 cents at the close, and September closed 1/2 cent higher. The bad effect upon the crop of scorched wheat was the cause of the advance. In the struggle for life of the great two billion bushel monster of a corn crop it drew a little over 450,000 more yield into the whirl of its tail whiskings and sent the latter's leader spirits tossing up and down for two hours like a professional mummer at a variety performance. Then what reasserted its headless nature and the market closed at 1 1/4 cent, closed weak at an advance of 1/2 cent. Provisions were firm and made another modest gain in values.

In wheat there was a fair trade and a rather moderate market, prices covering 1 1/2 to 1 3/4 cent range. The market opened with free selling at 3 1/2 for September, a trifle of an advance, and sold down to 3 1/4, then rallied to 3 1/2, broke 1/4 cent, changed some and closed at 3 1/2 for September. The surrounding features were rather bullish, but the corn situation was a disturbing factor and tended to sustain the market. Closing cables were generally weaker and lower. There was no export trade doing here and nothing at the seaboard.

Corn was active and higher with trading heavy and market broad with fluctuations covering 1 1/2 to 1 3/4 cent. There was an urgent demand from shorts, the opening being very unsettled and prices irregular at 3 1/2 cent higher for September and 1 1/2 cent for May. The market closed at 3 1/2, broke 1/4 cent, changed some and closed at 3 1/2 for September. The surrounding features were rather bullish, but the corn situation was a disturbing factor and tended to sustain the market. Closing cables were generally weaker and lower. There was no export trade doing here and nothing at the seaboard.

Wheat has firmed in the lowest depths of a panic, and is now selling at 1 1/2 to 1 3/4 cent. The market opened with free selling at 3 1/2 for September, a trifle of an advance, and sold down to 3 1/4, then rallied to 3 1/2, broke 1/4 cent, changed some and closed at 3 1/2 for September.
